

### Prediction 1

Effect of target velocity

| M \ T | VS | SL | FS | VF |
|-------|----|----|----|----|
| VS    |    |    |    |    |
| SL    |    |    |    |    |
| FS    |    |    |    |    |
| VF    |    |    |    |    |

Performance declines as target velocity increases

### Prediction 2

Effect of velocity difference

| M \ T | VS | SL | FS | VF |
|-------|----|----|----|----|
| VS    |    |    |    |    |
| SL    |    |    |    |    |
| FS    |    |    |    |    |
| VF    |    |    |    |    |

Performance declines as  $\Delta v$  becomes smaller
